DOMINICA

The best kept secret in the Caribbean, Dominica is a spectacular unspoiled tapestry of lush rainforests, towering mountains, rushing rivers, cascading waterfalls, sulfurous hot springs and volcanic wonders. Known as 'the nature island' and relatively untouched by mass tourism, Dominica is one of the youngest islands in the Caribbean chain – a mere 26 million years old and still actively evolving with continuous geothermal activity.

ESCAPE 1

- Titou Gorge
- Trafalgar falls
- Hot springs and optional sulfur bath
- Morne Bruce Garrison

The Titou Gorge (small throat) is a narrow short swim through a series of natural rooms and ponds formed by high cliff walls canopied by interlaced trees leading to a hidden waterfall! A scene from the film series Pirates of the Caribbean was also filmed here. A 10 minute walk takes you to one of the most popular sites in Dominica, the Trafalgar Falls. It's a well maintained footpath from the visitor center to the viewpoint for a panoramic view of the twin falls which plunge about 125ft and 75ft respectively. For the adventurous a 10 minute rock climb from the viewpoint takes you to a naturally hot and cold pool formed by the falls. Enjoy the view of natural hot springs at boiling point and mud pools that are believed to have medicinal qualities. There is no better natural medicine to soothe sore muscles or calm jittery nerves than settling into the springs' natural muddy water (Baths are optional and cost an additional US\$10pp).

Morne Bruce overlooks the city of Roseau from above the Botanical Gardens, which offers a panoramic view of the entire city. The famous Morne Bruce cross also known as 'The Shrine', made of cast concrete, was erected in 1928 by the Roman Catholic Bishop James Morris and symbolises the protection of the town and harbor beyond.

ESCAPE 2

- Emerald Pool

The cascading 40ft waterfall makes the site even more picturesque and is only 10 minutes from the interior road! Enjoy a cool bath and relax.

Spanny Falls is a hidden treasure that one anticipates just 10 minutes down from the main road as the stone trek is usually quiet but appeals more and more to the senses as you draw closer to the rushing waterfall. Appreciate the lush greenery and listen to the overhead birds as you trek. From the platform, watch and enjoy the beautiful waterfall and take a dip in the large pool below. Just a short walk from the Emerald Pool and Spanny Falls, Jacko Falls is nothing short of a beauty and is also easily accessible by a 3 minute walk down steps! Beauty abounds on the island, with bluffs overlooking pretty harbors, sandy cliffed beaches and tranquil rocky coves where fish provide the beauty.

DUTCH AND FRENCH TOUR

At the end of this tour, you will have experienced the island and learned some of its history and culture - there is no beach visit! Driving around the Great Salt Pond we will continue through Fort Willem for a great view of Philipsburg and one of our historical forts, Fort Amsterdam, built by the Dutch in 1631 on a peninsula that juts out between Great Bay and Little Bay. Next take incredible photos and enjoy amazing panoramic views of Dutch St. Maarten from the top of Harold Jack Hill lookout point between Cole Bay and Philipsburg. You can spot the Caribbean islands of Saba, St. Eustatius, and Anguilla in the distance. Then we will drive along Simpson Bay Village, past the Yacht Club where the million dollar yachts are docked and the Simpson Bay Fish Market, where local fishermen land their catch.

St Martin is a dual culture island, with the French part in the north, and the Dutch in the south, we will stop for you to take pictures of the imaginary line that separates them, then on to the French capital, Marigot. Visiting Marigot also means tasting the charm of local products in a traditional Caribbean atmosphere - the town has rows of patisseries that sit side by side with smart bistros. We will have a stop of 1hr 15min, so you can browse the local merchant markets and purchase local products, spices, clothing, jewelery etc.

Moving on, overlooking Marigot Bay and facing Anguilla is the largest historical monument in St. Maarten, named after King Louis XVI of France, who built a settlement to protect Marigot during his reign. To access Fort Louis you must climb the 91 steps that will take you to the top of the Fort. Continuing, we will drive through Grand Case village and on to Paradise view, a panoramic view overlooking Orient Bay, Pinel Island, Tintemarr and St Barts. After this we will pass through the largest village on the French side of the island, Quartier d'Orleans before heading back to port.

THE TRIPLE BBB TOUR

The three Bs - beer, burgers and a beach with crystal calm water and powder white sand - it's a day in paradise!

Before any of that we will visit the number one photo stop on the island, the Harold Jack Lookout point on Cole Bay hill. Enjoy the breath-taking views and panoramic pictures - you can even zoom in to see the land of King Kong. You've never heard of Saba but this tiny Caribbean island's silhouette was used to serve as the backdrop for 'Skull Island'- Kong's home in the original 1933 movie. Not a bad start to the tour, eh?

St. Maarten is known for having some of the best beaches in the Caribbean and this tour will give you the option of choosing from two of its finest - the ones the locals go to. But before that, let's do a beer tour of the island's largest brewery, SXM Beer. Sint Maarten World Class Premium Lager, a crisp, easy drinking European style lager is your welcome drink. It's ultra-filtered making The Premium Lager a smooth flavored beer with a great finish for easy drinking anywhere. You will learn a little about the history of beer and our story and participate in our trivia questions for a chance to win prizes. Our tour information takes place in the Tap Area and depending on safety and our production/cleaning schedules, a walk through the production area is possible. After the tour you will have time to browse the gift area or to enjoy some time at the bar. This beer is so good that we locals are now calling it our national beer.

Now that you all are tipsy - except the driver, we will take a 5-minute drive to the Tap and Still for the best burgers in the world. Ooooweeee - we can tap and still be friends is their slogan, but their burgers will make you want more. You will order during the bus ride so when you get there just have a seat and prepare for lift off. Amazing juicy burgers, special homemade fries and oh yeah, they serve SXM BEER. Let us know if you are vegetarian or allergic to any food and we will make your burger right.

Heaven won't be complete without a beach. You can choose to relax at Kimsha beach which is 10 steps away from The Tap and Still or be entertained by planes landing and taking off right over your head at Maho Beach then try your luck at the Casino close by.

Time Limit - 45 minutes.

From here we take a drive through Simpson Bay Marina and enjoy the beautiful views of the Million dollar yachts docked or sailing on the blue crystal waters. This area is known for its beauty.
